To: Joint Steering Committee for Development of RDA

From: Gordon Dunsire, CILIP Representative

Subject: 3.11.4 Layout of tactile text and 3.13 Font Size

CILIP thanks BL for its proposed revision.

CILIP agrees with the proposal.

CILIP notes some ambiguity in the treatment of braille as a font. Font is associated with "type" in the Glossary definition of Font Size, but "type" is not defined.

CILIP suggests JSC consider developing a vocabulary for Line Spacing, for example with terms for "single line spacing", "double line spacing", etc.
