DNB thanks BL for this proposal. We agree with the proposal even though we are not sure what exactly real non human corporate bodies could be.

We doubt that two pigs can form a corporate body. Maybe the example under 11.7.1.4 should be accommodated: instead of „Escaped Pigs“ we propose "Group of two escaped pigs".

RDA's definition a *corporate body* "*An organization or group of persons and/or organizations that is identified by a particular name and that acts, or may act, as a unit*". should be changed accordingly to also include fictitious organizations and groups of fictitious persons, figures or organizations.
