

To: Joint Steering Committee for Development of RDA

From: Bill Leonard, CCC representative

Subject: **Other designation associated with the person: Revision of RDA 9.0, 9.6.1 and 9.19.1**

CCC has reviewed 6JSC/BL/4 and agrees that it is desirable to create unique access points for the entities discussed but we cannot agree that these are persons. The FR Review Group is in the midst of revising the definition of persons as part of the reconciliation of differences between FRBR and FRAD in preparation for a new FR model consolidation. Altering the definition of persons in RDA at this time would not be prudent.

CCC also approaches cautiously suggestions to codify in RDA current practices specific to name authority file maintenance.
