Subject: Colour content in RDA

DNB thanks CILIP for this proposal. We don't agree with the proposal in this form and have the following comments.

Basically, we consider a diminution of the instructions under 7.17 as very useful. However, we do not consider the two terms „monochrome“ and „polychrome“ in 7.17.1.3 as a good alternative for the existing rules – at least not for the German-speaking community having the translation in mind.

The examples under 7.17.1.4 are not in line with the proposed changes. Most of the examples refer to the newly proposed alternative under 7.17.1.3.
