

To: Joint Steering Committee for Revision of AACR
From: Marg Stewart, CCC representative
Subject: **Additions to RDA based on MARC 21 elements**

CCC has reviewed the proposal identifying the elements currently not in RDA but are fields in MARC 21 suggested as additions to RDA. We offer the following comments:

263 Project Publication Date

CCC does not support the addition of this element in RDA.

507 Scale Note for Graphic Material

CCC does not have any objections to adding the data to RDA. However, the element is presented as a note in this proposal; according to the Scope and structure document (p. 10), notes are recorded following the element. Where is the element in this situation?

518 Date/Time and Place of an Event Note

Recommendation 1

CCC agrees in principle but awaits to see a specific proposal.

Recommendation 2

CCC does not support including specific instructions relating to the finding of objects.

524 Preferred Citation of Described Materials Note

CCC agrees in principle with the addition of a data element for a preferred citation. However, we have some concerns with the proposed examples.
