

5JSC/CILIP rep/1/CCC response  
September 17, 2007

**To:** Joint Steering Committee for Development of RDA  
**From:** Marg Stewart, CCC representative  
**Subject:** **IME ICC 5.2.4 Forms of Uniform titles**

CCC would like to express its appreciation to the CILIP rep for presenting both sides of the issue for JSC's consideration.

CCC is in favour of alignment with IME ICC principles. However, this is one case where we do not support alignment. We suggest that JSC ask IME ICC participants to reconsider its approach. We agree with the points raised by ALA and CILIP. In addition, as a bilingual country, many libraries support both an English language catalogue and a French language catalogue; this would make the IME ICC approach very difficult to apply.
