Subject: Breton initial articles (AACR2 E.1A)

General comments

ACOC thanks LC for preparing this proposal.

ACOC does not have any expertise in the Breton language, and so we have no specific comments to make on the proposal.

We would like JSC to discuss the scope of Appendix C. Initial articles, and its relationship to MARC's "Initial Definite and Indefinite Articles" (<http://www.loc.gov/marc/bibliographic/bdapp-e.html>), and in particular to discuss the most appropriate place to maintain this information. This discussion could then inform the work of the RDA Appendices Group.
