

To: Joint Steering Committee for Development of RDA

From: Bill Leonard, CCC representative

Subject: Other place associated with the person: Revision of RDA 9.11

CCC does see the utility of recording some of the proposed relationships between places and persons. We disagree with the proposed instruction in 6JSC/BL/6. We prefer that RDA is aligned with FRAD as closely as possible. We agree with the argument presented in the LC counter-proposal in *6JSC/BL/6/LC response* and we also agree with the proposal to revise slightly the scope and to rename *9.11 Place of residence*.
