

To: Joint Steering Committee for Development of RDA

From: Gordon Dunsire, CILIP Representative

Subject: Change to 2.2.4 to remove parallel title proper

CILIP thanks BL for its proposed revision. CILIP agrees with the proposal.

CILIP notes that the revision has an impact on

6JSC/ISBD/Discussion/1/Alignment *Alignment of the ISBD element set with RDA element set – RDA, Appendix D.1*, and specifically the alignment of **ISBD 1.2 Parallel title to RDA 2.3.3 Parallel Title Proper**.

The note attached to the alignment will become inoperative, removing the inequivalence between the elements, so the alignment will change from “>” to “=”.
