

To: Joint Steering Committee for Development of RDA
From: Galen Jones, CILIP Representative
Subject: Internationalization and RDA Appendix A Capitalization:
Discussion Paper

Whilst CILIP recognizes the need to cater for differences in capitalization it is felt that Appendix A is not the right place to locate guidance of this nature and that language specific sections may be best located as a resource under the Tools tab.

CILIP agrees with the general points of the discussion paper and supports simplification of the instructions.
