

To: Joint Steering Committee for Development of RDA
From: Galen Jones, CILIP Representative
Subject: Discussion paper: Mixture of work level and manifestation level in RDA 2.3.2.6 (Collective Title and Titles of Individual Contents), Optional Additions

CILIP thanks DNB for its discussion paper.

CILIP accepts the discussion paper, albeit with some concern about the references to the MARC environment. CILIP feels there needs to be an aim for full FRBR implementation.

In response to the questions posed, CILIP agrees that there are conceptual problems connected with the optional additions in RDA. Secondly, CILIP suggests that alternative strategies be considered.
