From: Christine Frodl, DNB Representative
Subject: Compilations of Works: Discussion Paper

DNB thanks EURIG for preparing this interesting Discussion paper.

We have a preference for ACOCs approach regarding the status of the compiler (see 6JSC/ACOC/7) and would be interested in JSC's position to the *Final Report of the Working Group on Aggregates* (see also 6JSC/EURIG/Discussion/2/DNB response).
