

**To:** Joint Steering Committee for Development of RDA

**From:** Gordon Dunsire, CILIP Representative

**Subject:** Representing date of works and expressions in RDA: Discussion Paper

CILIP thanks EURIG for its discussion paper.

CILIP responds to the questions posed in the paper as follows:

1. CILIP does not agree with this approach. CILIP believes an approach based on modelling events rather than dates would be more useful.
2. CILIP does not agree with the creation of the new elements associated with work and expression.
