

To: Joint Steering Committee for Development of RDA  
From: John Attig, ALA Representative  
Subject: Reorganization of instruction on saints in 9.2.2.18

ALA thanks the Library of Congress for this reorganization of the instructions on saints. ALA supports the proposal.

ALA notes that language almost identical to RDA 9.2.2.18 occurs at 9.2.2.14, and suggests that this instruction should be revised in the same way and for the same reasons.

**Proposed revision:**

**9.2.2.14            General Guidelines on Recording Names Containing a Title of Nobility**

[instructions and examples omitted; no change]

~~Do not include the term *Saint* as part of the name of a canonized person known by a title of nobility. Record the term as a designation associated with the person (see [9.6.1.4 RDA](#)).~~

[instruction omitted; no change]

**9.2.2.14.1            Saints**

Do not include the term *Saint* as part of the name of a canonized person known by a title of nobility. Record the term as a designation associated with the person (see [9.6.1.4 RDA](#)).
