

6JSC /LC/7/Rev/ALA response
December 19, 2011

To: Joint Steering Committee for Development of RDA
From: John Attig, ALA Representative
Subject: Changes in content characteristics

ALA agrees that the revision incorporates the decisions made by the JSC on 2 November 2012. We would only raise one point for consideration.

Instruction 7.29.2.3 in the revision has the caption “Changes in Content Characteristics”. Parallel captions in RDA 2.20 and RDA 3.22 (e.g., 3.22.6.3) use the singular: “Change in [element]”.
