

To: Joint Steering Committee for Development of RDA
From: Marg Stewart, CCC representative
Subject: Changes in content characteristics

CCC agrees with LC's proposal and the proposed wording for chapter 7.

CCC has a question about the naming of the note elements for Chapters 2 and 3. If 2.20 and 3.22 have identical names, does this mean that they are the same element? If so, should a reciprocal reference be added? If not, should 3.22 be renamed "Note on carrier"?
