

Exercise #2

A Quickstart Guide to RDA Terminology: Elements, SES, and VES

1. What is the beta Toolkit label for the element “writer of preface”?

2. What is the domain and range of the element “academic supervisor”?

3. What is the inverse element for “part of work”?

4. What is the inverse element for “content type”?

5. Find a broader and a narrower relationship than “architect agent”.

6. Where can you find the RDA vocabulary for “video format”? How many terms are listed?

7. Make two metadata statements about yourself using RDA elements.

ANSWERS

1. Contributor agent of text. Also Contributor collective agent of text, Contributor corporate body of text. Contributor family of text, and Contributor person of text.
2. Domain: work ; Range: person
3. part work
4. There is no inverse. The element content type is an attribute element. Attribute elements do not relate two RDA entities. Only relationship elements have inverses.
5. Broader relationship: creator agent of work ; Narrower relationship: landscape architect agent, also landscape architect collective agent, landscape architect corporate body, landscape architect family, and landscape architect person
6. In the RDA VES Video Format list under Resources > Vocabulary Encoding Schemes > RDA Video Format; Under “Recording a structured description” in the element page “video format”; There are 15 terms in this RDA vocabulary.
7. Answers will vary; Statements should include elements for Person.
[Me] → has given name → Dominique
[Me] → is person member of corporate body of → NARDAC
