

To: Joint Steering Committee for Development of RDA  
From: Susanne Oehlschläger, DNB Representative  
Subject: Transcription of punctuation and symbols (1.7.3, 1.7.5)

DNB thanks the Canadian Committee on Cataloguing for this proposal. We agree in principle but would like to point out that we had serious issues in understanding the example on page 7, and its explanation.

As far as we understand, the explanation is based on the ISBD representation of the data. If this assumption is true, the explanation should be designated as such.

For such cases where it is difficult to describe the examples, it might be useful to have examples with title page images in the RDA Toolkit.
