Why European BIBFRAME Workshops?

- The aim of the BIBFRAME Workshop in Europe is to be a forum for sharing knowledge about the practice of, production with, and planning of BIBFRAME implementation.
- We bring together people working in the transition from MARC to Linked Data using the BIBFRAME model and related tools.
- The workshop areas are strongly focused on the practical implementation of BIBFRAME, not a theoretical Linked Data / Semantic Web event.

Dialogue RSC / BIBFRAME community

- Meeting during the 2020 ALA Midwinter Meeting in Philadelphia 2020-01-26
- The conversation continued at the 2020 ALA Midwinter Conference in Philadelphia between representatives of the RDA Steering Committee and the larger BIBFRAME community (which includes the Library of Congress/NDMSO, LD4P, Share-VDE, and the organizer group of the annual BIBFRAME workshops in Europe). A possible field of future cooperation is an approach to application profiles.
- Since January 2020 no physical ALA meetings.....

5th Annual Meeting 2021

—21-23 September 2021: Virtual Event

- The Organizer Group are excited about the conference's virtual format and the opportunity it presents for wider participation of library and information colleagues from across the globe with a shared interest in the use of BIBFRAME and other ontologies. We welcome proposals that discuss practical and/or experimental aspects of current work in this area.
- Contributors may submit proposals for presentations (15 minutes), lightning talks (5 minutes) or panel presentations (up to 30 minutes).
- During the conference there will also be the opportunity to suggest actual inspired lightning talks
