

RDA Toolkit Update

James Hennelly

Director, RDA Toolkit

October Release

- Will be published this week.
- Includes the deprecation of 39 elements: all of them are either Expression or Manifestation element.
- New examples were added to 43 element pages.
- The next release is set for February.
- 2027 will follow the same release schedule.

The Editorial Group

- There will be an RDA Steering Committee meeting in November.
- Outcomes of that meeting will be reported out soon after.
- The Editorial Group will report on the scheduling of implementation of those decisions soon after.
- The Editorial Group is comprised of the Toolkit Director, the RSC Chair, the RSC Secretary, the Examples Editor, and the Technical Committee Liaison.
- The Group will assess the work required to implement decisions and when the work can be readied for publication.

Translation Update

- Registry translations total 17, with the newest being Turkish. More are on the way.
- Official Toolkit translations number 6, with a Spanish translation added most recently.
- The Arabic and Hungarian translations are nearing completion and should be published before the year ends.

One more thing ...

We will soon be changing the underlying link to IRIs to a secure link.

Thank you
