There is a typo in the scope note. It should read as follows:

Proposed scope note: This element applies to a manifestation that embodies one or more expressions that are manifested temporally (such as a cartographic moving image, performed music, sounds, spoken word, a two-dimensional and three-dimensional moving image, or performed movement), or to a manifestation that embodies one or more expressions that have an envisioned duration of performance (including notated music, notated ~~musie~~ movement, tactile notated music, and tactile notated movement).
