From: Jessica Grzegorski, RDA Examples Editor

Subject: Formal response to RSC/ExtentWG/2025/8, Proposal for Manifestation:
sequence of units of extent

Recommendation 1.1: Create the element Manifestation: **sequence of units of extent**.

Provisionally approve.

I would like to see a fuller set of instructions beyond the **Precording** section to get a better sense of how this new element will fit into the overall suite of extent proposals.

Recommendation 1.2: Move the applicable instructions under the section **Extent of manifestation of text** in the current Manifestation: **extent of manifestation** to Community Resources, with the applicable edits.

Approve, with additional considerations.

Will there be information within the base RDA instructions that directs users to the moved text in Community Resources? Will the instructions for other content types (e.g., cartographic images and still images) remain in Manifestation: **extent of manifestation**? My concern is that users may become frustrated if it is difficult to locate these very important instructions, especially if instructions for text are removed but instructions for other content types remain.
