Subject: Formal response to RSC/TechnicalWG/2026/3 -- [Proposal on]  
Resource-to-resource digest, review, and critique elements

EURIG thanks the Technical WG for their continuing work on finalizing the soft-deprecated elements' future.

**Recommendation 1:**

Fully deprecate the following elements in the RDA Registry and remove them from the Toolkit.

Remove these elements from the alignment of soft-deprecated elements in the RDA Registry, and add them to a new alignment of fully-deprecated elements to RDA elements, to be included in the Registry.

- digest of expression
- digest of work
- digested as expression
- digested as work
- RDA entity critiqued by
- RDA entity reviewed by
- work reviewed by
- work critiqued by
- review of work
- critique of work
- review of manifestation
- critique of manifestation
- review of expression
- critique of expression
- critique of RDA entity
- review of RDA entity
- expression critiqued by
- expression reviewed by
- manifestation critiqued by
- manifestation reviewed by

**Approve.**

It is our understanding that, where elements are fully deprecated, they become alternate labels for the preferred element.

Having read the [Example Editor's response](#), EURIG agrees with the suggested *Use for* additions to the Glossary.
